Save your family from a financial burden

You've devoted your entire life to your family – taking care of them, providing for them, being there when they need you, and always planning for the moments you share together. Planning for that moment when you will no longer be there is just as important, and might be easier than you think.

By purchasing Final Expense Whole Life insurance, you can provide for your family even after you're gone. While no amount of money will replace their loss, making this smart decision now will save them from a financial burden later during a difficult time.

When it comes to coverage, the choice is yours

You decide the coverage amount you want to give your family, from \$1,000 to \$40,000. Final Expense Whole Life insurance can be used for any purpose, including a financial gift for your family or to cover any expenses you leave behind, including:

- Medical bills
- Credit card debt
- Loan balances
- Ongoing household expenses
- Estate settlement expenses
- Funeral costs

What will you leave behind?

On average, families are left with \$62,000 of debt from a lost loved one.¹

When it comes to paying for your final expenses, you can't rely on Social Security alone. The U.S. government only pays a lump sum of \$255 for those who qualify.²

You deserve comfort and peace of mind knowing your loved ones will have financial protection following your death.

Choose from two plan options

Guaranteed Assurance* provides coverage with absolutely no underwriting and no health questions to answer.

- If at anytime a death occurs by accident, the full death benefit will be paid
- If a death occurs in the first two policy years, and is not an accidental death, the benefit paid will be 110 percent of the premiums paid to date
- After the first two policy years, regardless of how the death occurs, the full death benefit is paid

Assurance Plus is designed for those in good health, looking for additional value. If you can answer "no" to three simple health questions (four in Florida), you will qualify for a 25 percent increase of the full death benefit starting on day one with no required medical exam.

Plus the **Accelerated Death Benefit rider**** is included at **no additional charge** on the Assurance Plus plan. This rider provides you with access to some of your policy benefit to cover medical expenses or supplement income if you are diagnosed with a chronic or terminal illness (defined below). You would receive the present value of the death benefit, and any remaining values would be paid to your beneficiaries upon death.

- Chronic - Insured cannot perform two activities of daily living (dressing, bathing) for a period of at least 90 days
- Terminal - Insured diagnosed by a licensed physician with a disease expected to cause death within 12 months

Additional protection for a minimal cost

For only **\$1 a month**, you can help protect your family with the **Dependent Child and Grandchild rider**. This rider will pay \$2,500 on the first death of a dependent child or grandchild.
